

Choosing the right printing supplies is a key to success in a high-volume printing environment.

Did you know that according to a 2005 CapStats study¹, typically only 10% of office printing costs relate to equipment, supplies and service expenses? The other 90% of office printing costs are:

- IT support and infrastructure
- Document management expense
- Procurement and facility costs
- End-user interaction time

At HP, we think long and hard about printing so you don't have to. To help you effectively manage a high-volume printing environment; we offer:

- HP LaserJet high-yield print cartridges (X) that produce more pages than standard cartridges so you reap the benefits of less printer interaction and reduced cost-per-page printing
- HP LaserJet dual packs (D) that on average cost 10% less than their standalone counterparts and reduce the time associated with ordering and receiving inventory

There's money to save with HP LaserJet high-yield (X) print cartridges.

HP LaserJet high-yield print cartridges are available across a broad array of HP LaserJet printers and are designed to reduce print management costs and improve your total cost of ownership. High-yield cartridges directly address your office printing costs by:

- Lowering cost-per-page expenses—HP high-yield cartridges offer the benefit of lower cost-per-page versus standard-capacity (A) HP print cartridges. Depending on your printer type, HP high-yield cartridges can reduce cost-per-page by up to 25% over standard yield cartridges.²
- Reducing printer intervention time—With high-yield cartridges, you'll save time because you reduce the frequency of replacing print cartridges.
- Less frequent ordering—High-yield cartridges last longer than standard cartridges so you need to order replacement cartridges less frequently, saving you time and money.

HP LaserJet dual packs (D) offer twice the printing power.

Stretch your printing supplies budget even more with the added convenience of HP LaserJet dual pack print cartridges. HP dual packs are ideally suited for high-volume printing environments and offer the cost-saving benefits of:

- Lower purchase price—On average, HP LaserJet dual packs cost 10% less than their standalone counterparts, giving you the superior print quality you expect from HP plus the added benefit of bottom line cost savings.
- Simplified order process—You only have one SKU to order, track and ship with twice the printing power—saving time, handling and, in some cases, shipping expenses.

¹ CapStats: Assessing & Benchmarking Documents Study, 2005

² Cost-per-page calculations based on ISO/IEC 19752 yield and web-based SRP for HP's (X) cartridges versus their standard (A) cartridge counterparts. Does not cover (X) cartridges that do not have an (A) equivalent.

HP LaserJet high-yield cartridge supported printers

Printers supported	Standard (A) SKU	High-yield (X) SKU
HP LaserJet 4/4m/4 plus series	92298A	92298X
HP LaserJet 5/5m/5n/5se series	92298A	92298X
HP LaserJet 5si series	C3909A	C3909X
