RollerMouse. Provides a mouse that can be positioned below the spacebar to improve productivity and put cursor control in optimum work zone. Eliminates reaching motions that contribute to repetitive motion injuries. Sliding rollerbar optical mouse allows for right, left or two handed use. Three user definable buttons and a scroll wheel. Click force is adjustable. Includes a lycra wrist support. USB/PS2 connectivity. RollerMouse Pro includes a cursor bar that is 60% longer than standard RollerMouse, and includes two additional buttons for "Drag Lock" and "Double Click" functionality. Does not include secondary PS/2 port as on RollerMouse.

"Perfit" optical mouse. Available for right or left hand, in small to extra large. 3 button design on top. Thumb support w/two position rocker switch on side. Reduces strain on index finger and requires reduced pinch force, reducing the risk of CTS. Balanced hand position reduces use of flexor muscles, reducing carpal tunnel activity. Elevated wrist support to maintain straighter wrist alignment and minimize lateral deviation. USB/PS2 connectivity. To determine proper size, measure from base of palm (where wrist attached to hand) to tip of middle finger. Small: 6"-6¾", Medium: 6¾"-7½", Large: 7½"-8¼", XLarge: over 8¼".

Switch Mouse. Optical. Boosts comfort and reduces the risk of injury. Integrates two major innovations: a V-shaped base, which puts the wrist and forearm into a natural pronation for left or right-handed users, and size adjustability to provide a perfect fit for any computer user. Includes a built-in palm support to prevent contact stress on the wrist, four-way scrolling dish to minimize repetitive motion, and programmable buttons for user-specified functions. All of this adds up to the most customizable and ergonomic mouse ever created. USB. White.
